Client Review

"Svast Healthcare team has done a phenomenal job for our practice. Our billing team member left and we were looking for a eclinicalworks medical billing partner. We went with Svast Healthcare based on their medical billing expertise and positive references. As a result our payments have increased, AR is reduced. Patient calls on billing are addressed very professionally. Overall we are very pleased."
Practice Administrator, Pediatric Practice

"Any time if we have a medical billing issue or claim denials, The Svast Healthcare team has responded in a timely manner. Our AR's is down and our collections are great. We have a team that we work with and have access to them whenever needed. As the practice administrator, I am very happy with Svast team. They have certainly made my job easier. I would certainly recommend them."
Practice Manager, Ophthalmology ASC

"When we started doing our billing with Svast Healthcare, the onboarding process was handled very well with all the system set-up, workflow changes and automation. We noticed immediate results around reduced denials, increased payment and decreased AR. Their team is an extension of our team and highly responsive."
Practice Manager, Internal Medicine

A lot of changes were taking place in our office, so we hired Svast Healthcare Technologies to be our Medical Billing Service. They have been very efficient in handling our claims. They handled old claims for our office and have been very helpful in getting our old claims paid.
If you are one who is looking for Medical Billing and Revenue cycle Management Services then I strongly recommend Svast Healthcare Technologies.
**Practice Manager, OB/GYN Practice**
